II. EXECUTIVE SUMMARY & TRANSITION FROM LEGAL TO HIGHLY ILLEGAL

This audit traces the complete evidentiary chain of GreenGro Technologies, Inc. (GRNH) common stock transactions from documented private placements in late 2016 through sham consulting agreements, opinion-letter shopping, massive offshore nominee distributions, and subsequent federal felony prosecutions and civil actions.

The evidentiary chronology establishes five distinct operational phases:

Phase 1: Phase 1: Legal / Nominal Issuance (Oct – Dec 2016)

- **Period:** October 2016 – December 2016
- **Risk Level:** Low / Documented Basis

Phase 2: Phase 2: Accelerated Flipping & Nominee Transfers (Early 2017)

- **Period:** January 2017 – May 2017
- **Risk Level:** Elevated / Velocity Anomaly
- **Operational Summary:** Sudden velocity increase. Shares transferred within 4 days of issuance via irrevocable stock powers to Merrill Lynch, Exeter Trust, Cede & Co., and Huntington accounts for open-market liquidation with proceeds wired to personal accounts.
- **Key Badges:** <4 Day Turnaround, Irrevocable Stock Powers, Exeter Trust Wires

Phase 3: Phase 3: Sham Consulting & Opinion Shopping (Mid 2017 – 2018)

- **Period:** June 2017 – December 2018
- **Risk Level:** High / Regulatory & Securities Law Violation
- **Operational Summary:** Issuance of 25.5M+ shares to shell consultants (Delfin, Rubio, Hulbert, Phoenix Theater) with backdated agreements dating back 4 years to manufacture fake Rule 144 seasoning. Reliance on opinion letters by attorneys Stephen Mills and James Hintzen to strip legends.
- **Key Badges:** 4-Year Backdated Contracts, Section 4(a)(1) Opinion Shopping, 25.5M Advisory Shares

Phase 4: Phase 4: Massive Offshore Straw Dumping (Early 2019)

- **Risk Level:** Critical / Fraudulent Concealment & Section 5 Violations
- **Operational Summary:** Consolidation of over 30,450,000 shares into a single foreign nominee, Paula Marie Poe, at $0.007/share (90% below market), funded via Fidelity Transfer Services and Bank of America accounts, followed by immediate open-market

dumping. Haas instructs Sanchez: 'Send 10M to Gaines and 17M back to me.'

- **Key Badges:** 90% Price Discount, Paula Marie Poe Straw, 30.45M Amalgamation

Phase 5: Phase 5: Federal Indictment & Superior Court Actions (2020 – 2025)

- **Period:** December 2020 – 2025

III. PRIMARY STATUTORY FRAUD PATTERNS IDENTIFIED

Backdated Advisory Contracts (Rule 144 Manufacture)

- **Statutory Violation:** `Securities Act Section 5 / Rule 144(d) Holding Period Fraud`
- **Severity Level:** Critical
- **Analysis:** Agreements executed on May 1, 2017 (e.g. Delfin, Rubio, Hulbert) explicitly backdated the 'Description of Services' starting date by 4 years to September 9, 2013. This created the false documentary appearance of a satisfied 1-year Rule 144 holding period to induce transfer agents to remove restrictive legends.
- **Affected Stock Certificates:** CS1-7910, CS1-7915, CS1-7960-7969, CS1-8002
- **Primary Source Evidence Files:**
  - `CONSULTING AGREEMENT_Delfin_GRNH.docx`
  - `CONSULTING AGREEMENT_Rubio_GRNH.docx`
  - `CONSULTING AGREEMENT_Hulbert_GRNH.docx`

Hyper-Velocity Nominee Flipping (<72 Hours)

- **Statutory Violation:** `Underwriter Status / Section 2(a)(11) Distribution Conduit`
- **Severity Level:** High
- **Analysis:** Restricted certificates issued to nominees were immediately endorsed via irrevocable stock powers within 3 to 4 days of issuance and routed to Merrill Lynch, Exeter Trust, and Cede & Co. for open-market dump, violating statutory investment intent.
- **Affected Stock Certificates:** CS1-7824, CS1-7906, CS1-7908
- **Primary Source Evidence Files:**
  - `GRNH Certs 7814 and 7813 overnight to ML 120816.pdf`

Massive Offshore Straw Consolidation (Paula Marie Poe)

- **Statutory Violation:** `Securities Exchange Act Section 10(b) / Rule 10b-5 Scheme Liability`
- **Severity Level:** Critical
- **Analysis:** In April 2019, 30,450,000 shares across certificates CS1-8158 through CS1-8173 were amalgamated and issued to foreign straw recipient Paula Marie Poe at $0.007/share (90% market discount), with proceeds routed to Bank of America and personal accounts.
- **Affected Stock Certificates:** CS1-8158, CS1-8159, CS1-8160, CS1-8161-8165, CS1-8166, CS1-8167, CS1-8172, CS1-8173

Opinion Shopping & Attorney Reliance (Mills & Hintzen)

- **Statutory Violation:** `Legal Opinion Malpractice / Fraudulent Exemption Claim`
- **Severity Level:** High
- **Analysis:** Attorneys Stephen Mills and James Hintzen issued Section 4(a)(1) legal opinions to Fidelity Transfer Services asserting exemption from registration, despite knowing or having reason to know of nominee ownership, sham consulting agreements, and lack of valid holding periods.
- **Affected Stock Certificates:** CS1-7750, CS1-7905, CS1-7910, CS1-7971, CS1-7972
- **Primary Source Evidence Files:**
  - `GRNH-4a1 Opinion Letter Draft II.pdf`
  - `GRNH 7905 2.5 million pkg for Ruben for lenged lift.pdf`

Transfer Agent Ledger Discrepancies (29M vs 78M vs 120M)

- **Statutory Violation:** `Books & Records Violations / Spurious Share Creation`
- **Severity Level:** Critical
- **Analysis:** As disclosed in the Haas Rule 26.1 Disclosure (CV2025-013574), internal company records, transfer agent communications, and demand letters reflected wildly conflicting share totals: 29 million, 78 million, and up to 120 million shares connected to Fidelity Transfer Services and Ruben Sanchez.
- **Affected Stock Certificates:** All Active Issuances, CS1-7978
- **Primary Source Evidence Files:**

VI.C. Featured Case Spotlight 1: The John T. Root, Jr. 27M Share Opinion Fraud Autopsy

Attorney: John T. Root, Jr., Esq. (P.O. Box 701, Greenbrier, AR 72058) **Recipient:** E.F. Romano III | **Cert:** CS1-8172 | **Volume:** 27,000,000 Shares **Date:** January 22, 2019 (Drafted) / April 22, 2019 (Re-issued)

The 5.74% Mathematical Falsification:

- Root represented to Fidelity Transfer Services: *"I do not consider it to rise to the level of a distribution as it is **much less than one percent** of the outstanding shares of the Issuer."*
- Outstanding Common Shares: **470,220,980**
- Actual Share Ratio: **5.7419% (5.74x statutory ceiling)** (Exceeding the Rule 144(e) 1% volume limitation ceiling by 574%!)

Fatal Legal Defects:

- **Rule 144(d)(1) Affiliate Tacking Bar:** Under Rule 144(d)(1), purchasers of securities or debt from an affiliate cannot tack the affiliate's holding period. Romano was legally required to hold the shares for a minimum of 6 months to 1 year from the date of the January 2019 transfer before any public resale could occur. Root's attempt to tack back 10 years to Haas's 2009 employment agreement was a legal nullity.
- **Rule 144(e)(1)(i) 1% Volume Ceiling Fraud:** Root explicitly certified to transfer agent Fidelity Transfer Services that 27M shares was "much less than one percent of the outstanding shares". In reality, 27M / 470.22M = 5.7419%! This was a direct, mathematically demonstrable false statement of material fact made to induce the issuance of unlegended shares.
- **Section 2(a)(11) Conduit & The Haas May 6, 2019 Order:** Exactly 14 days after Root's April 22, 2019 reissuance, James Haas sent formal written instructions to transfer agent Ruben Sanchez: "Send 10 million to Ira Gaines and 17 million back to me" (10M + 17M = 27M). This proves the E.F. Romano III loan was a complete sham conduit designed to wash affiliate stock before returning it to Haas and Gaines.

Verbatim Excerpts from Root Opinion Letter:

> *"These Shares were assigned and transferred from James Haas, an affiliate, as collateral in return for the lending of funds to the Issuer, and they are properly restricted, which restriction may be validly removed pursuant to Rule 144(e)(1)(i)..."*

> *"The original debt arose from amounts due Mr. Haas from an Employment Agreement, dated August 2009..."*

> *"The Shares represent 27,000,000 shares. The outstanding shares are 470,220,980 common and ... number, I do not consider it to rise to the level of a distribution as it is much less than one percent of the outstanding shares of the Issuer."*

VI.D. Featured Case Spotlight 2: The Cheryl Hintzen 6.79M Share Lawsuit Defense Autopsy

Case Caption: `Cheryl Hintzen v. James M. Haas, Maricopa County Superior Court Case No. CV2025-013574` **Stock Certificate:** `CS1-7937` | **Volume:** 6,790,000 Shares **Plaintiff's Claim:** Breach of contract alleging ,800,000+ in damages based on James Haas's refusal to instruct transfer agent Fidelity Transfer Services to remove restrictive legends. **Opinion Counsel:** Stephen Mills, Esq. (Opinion: January 10, 2018; Request: January 9, 2018)

The 44-Month Retroactive Backdating Fraud:

- **Claimed Provenance:** Stock Purchase Agreement dated August 20, 2015 from Mark Delfin (,000.00), purportedly deriving from a Sept 9, 2013 consulting agreement with GreenGro.
- **Documentary Reality:** GreenGro corporate records reveal Mark Delfin's consulting agreement (CONSULTING AGREEMENT_Delfin_GRNH.docx) was actually drafted and signed on May 1, 2017, and backdated 44 months to September 9, 2013. Cheryl Hintzen could not have acquired shares in August 2015 under a contract that did not exist until May 2017.

Defense Strategies for Counsel:

In Pari Delicto & Clean Hands Bar

- **Legal Rule:** Courts of equity will not enforce an illegal agreement or award damages to a party participating in a fraudulent evasion scheme.
- **Litigation Application:** Because Hintzen's claim derives from a retroactively backdated consulting contract designed to evade Section 5 registration, her claim is barred by the doctrine of unclean hands.

Section 2(a)(11) Statutory Underwriter Status

- **Legal Rule:** Any person acquiring stock from an issuer or affiliate with a view to distribution is an underwriter disqualified from Section 4(a)(1).
- **Litigation Application:** Hintzen immediately retained Stephen Mills to issue a Section 4(a)(1) free-trading opinion for open-market liquidation. She acted as a statutory underwriter conduit.

Impossibility & Legality of Performance

- **Legal Rule:** A corporate officer cannot be held liable for refusing to direct an unlawful act.
- **Litigation Application:** Had Haas instructed the transfer agent to remove the legend, Haas, the issuer, and the transfer agent would have committed a federal felony under Section 5. Refusal to commit a felony cannot form the predicate for breach of contract.

VI.E. Statutory Securities Law Violations Framework

17 C.F.R. § 230.144(d)(1): Affiliate Tacking Prohibition

- **Summary:** Holding periods can only tack if securities were purchased from non-affiliates. Acquisition of shares or debt from an affiliate (Haas or Gaines) restarts the holding period from day zero.
- **Litigation Impact:** Completely invalidates John T. Root's opinion tacking Haas's 2009 employment debt to E.F. Romano III, and Mills's opinions tacking Gaines trust holdings.

15 U.S.C. § 77b(a)(11): Statutory Underwriter Status

- **Summary:** Any person who purchases from an issuer or control person with a view to distribution is an underwriter, stripping Section 4(a)(1) exemption eligibility.
- **Litigation Impact:** Applies directly to E.F. Romano III, Cheryl Hintzen, Big Thunder LLC, and Paula Marie Poe, who served as conduits to funnel restricted stock into OTC retail markets.

17 C.F.R. § 230.144(i): Shell Company Resale Prohibition

- **Summary:** Rule 144 is unavailable for the resale of securities initially issued by a shell or former shell company unless strict reporting conditions and a 1-year seasoning period are met.
- **Litigation Impact:** GreenGro was a former shell company (Twister Holdings, Inc.). Opinion counsel attempted an end-run around 144(i) by citing Section 4(a)(1), which SEC enforcement precedent strictly forbids.

17 C.F.R. § 230.144(e)(1): Volume Limitations Ceiling

- **Summary:** Sales within any 3-month period cannot exceed the greater of 1% of outstanding shares or the average weekly reported trading volume.
- **Litigation Impact:** Root's 27M share opinion represented 5.74% of GreenGro's 470M outstanding shares, exceeding the 1% volume ceiling by 574%.

15 U.S.C. § 77e / SEC v. Spectrum: Attorney Opinion Liability & Scheme Liability

- **Summary:** Attorneys who author opinion letters without reasonable inquiry or who make material misstatements to transfer agents face SEC enforcement and civil liability.
- **Litigation Impact:** Establishes opinion counsel liability for Stephen Mills and John T. Root, Jr. for facilitating illegal distributions based on backdated and mathematically false representations.

VI.F. Cross-Examination Deposition Playbook for Defense Counsel

Deposition Target: John T. Root, Jr., Esq.

Target Subject: The 27M Share Romano Opinion & 5.74% Float Falsification

- **Q1:** In your opinion letter dated January 22, 2019, you wrote that 27,000,000 shares was "much less than one percent of the outstanding shares of the Issuer". Did you perform basic arithmetic before signing that statement?
- **Q2:** GreenGro had 470,220,980 common shares outstanding. What is 27,000,000 divided by 470,220,980?
- **Q3:** Under Rule 144(d)(1), how could Mr. Romano tack the holding period of James Haas, whom you explicitly identified in paragraph 2 as an affiliate of the issuer?
- **Q4:** Were you aware that exactly two weeks after your April 22, 2019 opinion letter, James Haas instructed transfer agent Ruben Sanchez to wire 10 million shares to Ira Gaines and 17 million shares back to himself?

Deposition Target: Stephen Mills, Esq.

Target Subject: Opinion Shopping, Backdated Consulting Agreements & Gaines Affiliation

- **Q1:** In your January 10, 2018 opinion letter for Cheryl Hintzen regarding certificate CS1-7937, you relied on a consulting agreement between GreenGro and Mark Delfin dated September 9, 2013. Did you examine the original metadata of that document?
- **Q2:** Are you aware that the Mark Delfin agreement was created and executed on May 1, 2017, nearly 4 years after its stated date?
- **Q3:** In your February 17, 2017 opinion for Ira Gaines (CS1-7696), you certified that Gaines was not an affiliate. What investigation did you conduct regarding Mr. Gaines's beneficial control over certificates 7750, 7800, 7835, and 7905?
- **Q4:** Did you verify whether GreenGro Technologies was a former shell company subject to the resale disqualifications of Rule 144(i)?

Deposition Target: Cheryl Hintzen

Target Subject: Lack of Consideration, Mark Delfin Conduit & Maricopa County Lawsuit

- **Q1:** You are currently suing James Haas in Maricopa County Superior Court (CV2025-013574) for failing to remove the legend on certificate CS1-7937. How much money did you pay to GreenGro Technologies, Inc. for those 6,790,000 shares?
- **Q2:** Your stock purchase agreement states you purchased the shares from Mark Delfin for ,000 on August 20, 2015. Can you produce bank records showing ,000 transferred to Mr. Delfin?
- **Q3:** Did you know that Mark Delfin's consulting agreement with GreenGro was not authored or signed until May 1, 2017?
- **Q4:** When you requested Stephen Mills to issue a Section 4(a)(1) legal opinion on January 9, 2018, was it your immediate intention to sell all 6.79 million shares into the OTC public float?

Deposition Target: Ruben Sanchez (Fidelity Transfer Services)

Target Subject: Transfer Agent Discrepancies (29M vs 78M vs 120M) & Canadian Straw Wires

- **Q1:** As disclosed in the Haas Rule 26.1 disclosure, Fidelity Transfer Services processed between 29 million, 78 million, and 120 million questionable GRNH shares. Why do your internal transfer ledgers fail to reconcile with SEC Pinksheet share totals?
- **Q2:** On April 2, 2019, Joshua Hintzen instructed you to cancel certificates 7960, 7961, and 7963 registered to Ira Gaines and reissue them to Canadian resident Paula Marie Poe. Why did you process a transfer from an affiliate to a foreign nominee without a registration statement?
- **Q3:** Between April 4 and April 10, 2019, Fidelity received wire payments totaling over ,000 for processing certificates 8161 through 8169. Who paid those transfer fees and what account did they originate from?

Pattern pattern_new_sellers: The "New Seller" Intermediary Washing Pattern

- **Severity:** `Critical`
- **Statutory Violations:** Securities Act Section 5, 15 U.S.C. § 77b(a)(11) Underwriter Conduit, Rule 144(d)(1) Tacking Bar
- **Mechanic Summary:** Instead of purchasing directly from GreenGro, buyers acquired restricted debt or consulting blocks from "New Sellers" (Dignitas, Third Coast, Motivated Minds, Delfin). Opinion attorneys then treated the secondary purchase as an arms-length acquisition and fraudulently tacked holding periods back to ancient consulting contracts.
- **Affected Certificates:** CS1-7910, CS1-7905, CS1-7937, CS1-7835
- **Transfer Flow Circuit:**
  1. **[Genesis] GreenGro Technologies, Inc.**: Issues unpriced restricted paper under vague "compromise" or consulting agreements

  4. **[Opinion Whitewash] Opinion Attorney (Stephen Mills / John Root)**: Authors Section 4(a)(1) opinion claiming shares have "come to rest" in non-affiliate hands

- **Affected Certificates:** CS1-7881, CS1-7960, CS1-7961, CS1-7963, CS1-7937, CS1-8087
- **Transfer Flow Circuit:**

- **Mechanic Summary:** On May 1, 2017, a cluster of advisory agreements (Delfin, Rubio, Hulbert, Phoenix) was executed for 25,500,000 shares. - **Affected Certificates:** CS1-8088, CS1-8089, CS1-8090, CS1-8091, CS1-7937
- **Transfer Flow Circuit:**
